

Pilot Modular BFH560 belt feed hopper

PRODUCT NAME BFH560 belt feed hopper
DOCUMENT NO: PCS-07-02-22
REV: 07
DATE: FEB 2017

innovative mobile crushing, screening and washing solutions

SPECIFICATIONS SHEET

DESCRIPTION

The Pilot Modular BFH560 skid mounted belt feed hopper is designed to be loaded by front end loader or excavator, provides a surge capacity and gives a controlled feed output.

BFH560 Belt Feed Hopper

- Feeder:** Approximately 7.0m³ hopper capacity
650mm (25.6") wide variable speed belt feeder.
Class 500/4ply 5mm top and 1.6mm bottom cover belting.
Rubber lagged drive drum.
Continuous self-tensioning chain and sprocket drive.
Feed restricting adjustable weighted doors.
Easy access grease points.
Guard doors for easy access to do inspection and maintenance.
- Drive:** Drive consisting of a 3kW 380V electric motor with mechanical speed variator.
- Feeder Capacity:** 50-300 tons per hour (material and arrangement dependant)
- Feed Conveyor Speed:** 1.4 to 7 m/min (3kW variable)
- Feed Size:** Up to 200mm (material size dependant)
- Frame:** Heavy duty skid frame and support structure
- Optional Extras:** Low friction liners
Brinell 200 abrasion resistant liners
500mm extensions to increase hopper capacity

ESTIMATED WEIGHT

Total: 3828kgs
